

Annie Broome

Case Manager and Registered General Nurse

Based near Aylesbury, Buckinghamshire

email: ab@benholden.net

Skills & Experience Summary

Annie is a highly experienced Registered General Nurse who has worked with spinal cord injured individuals in a specialist spinal injuries centre for over 25 years. She has experience of working with individuals requiring ventilatory support progressing all the way through to community rehabilitation.

Annie also has experience of caring for individuals who have sustained orthopaedic and vascular damage to limbs following serious injuries.

Annie has undertaken many immediate needs assessments and has provided case management services to adults with spinal cord injuries and complex orthopaedic injuries as an independent case manager for over six years.

Employment History

November 2008 – Current

Independent Case Manager

2004 – 2008
